

PA National Guard Harrisburg Military Post Building #8

RLS Construction Group was selected by the Pennsylvania Department of General Services to provide enhancements to the Server Room and IT Room, for the Pennsylvania National Guard - Harrisburg Military Post, Building #8, located in Harrisburg, PA. The specific tasks include installation of all piping, tanks, control systems and devices for a fully operational, clean-agent fire suppression system. Additional work includes upgrades to the electrical systems, consisting of installation of circuit breakers, contactors, switches, conduit, wiring and connections. The finished work will create up-to-date protections for the valuable data and equipment housed in these areas.
