

James E VanZandt VA Medical Center 7th Floor - Corridor Renovations

RLS Construction Group was selected by the James E VanZandt VA Medical Center to renovate the 7th floor corridors at the facility, located in Altoona, PA. The project involved the "Halls and Walls" at the large medical facility building, and included removal of existing wall paper, flooring and ceiling tiles, and installation of new flooring, wall paper, and ceiling materials, as well as painting to achieve a fresh color design scheme. The updated look creates a modern appearance that will promote an atmosphere of care and comfort.

Location:
Altoona, PA

Client:
