

James E VanZandt VA Medical Center Decontamination Shower

RLS Construction Group was selected to construct and install a fully functional, external, decontamination shower for the James E VanZandt VA Medical Center, located in Altoona, PA. The work includes hot and cold domestic water, a holding tank and sump pump for the contaminated waste water, and electric lights and heat. Additional work included proper excavation and grading of the site to accommodate the new structure. The decontamination unit, located adjacent to the emergency room entrance, provides an efficient means to wash any contaminated person, prior to entry into the medical center facility.

Location:
Altoona, PA

Client:
**Department of
Veterans Affairs**

Cost:
\$51,895

Completion Date:
July 2014
