

# James E VanZandt VA Medical Center Renovations to Building #2

**RLS Construction Group** was contracted by the Department of Veterans Affairs to renovate Building #2 on the James E VanZandt VA Medical Center campus, located in Altoona, PA. The project included finishes, lighting, doors/frames, windows, HVAC, electrical and associated alterations to expand the existing building by approximately 1,700-sf. The new space accommodates offices, restrooms and closets, and connects to the existing structure in two locations, so the entire building now has a circular flow, and creates more "people-friendly" travel throughout the facility.

Location:  
**Altoona, PA**

Client:  
**Department of  
Veterans Affairs**

Square Footage:  
**1,700**

Cost:  
**\$1,100,000**

Completion Date:  
**March 2014**
