

# National Recovery Agency

**RLS Construction Group** was selected by Kusic Properties to complete improvements to an existing office building in Mechanicsburg, to accommodate the National Recovery Agency. The project included construction of offices, conference and training rooms, as well as electrical system upgrades, cabling for telecommunications/data requirements, new lighting fixtures, HVAC diffusers and ducting, plumbing systems, and interior finishes that consist of new ceiling, flooring, doors, painting, and counter-tops. Additional work included resurfacing and re-stripping the parking lot and repainting the exterior of the building. The finished tenant space and associated exterior work allows the staff of this consumer credit agency to perform their tasks in a professional atmosphere that maximizes efficiency.
