

Philadelphia VA Medical Center CT Scan Replacement

RLS Construction Group was selected by Philadelphia VA Medical Center to provide general construction services related to the replacement of the CT Scan equipment. The extent of the work includes alterations, selective demolition, and upgrade of mechanical, electrical and plumbing systems, as well as removal and/or replacement of existing structures and equipment to accommodate the new government-supplied CT scanner. The project, located on the 3rd floor of the facility, was performed with minimal disruptions to this busy medical center.

Location:
Philadelphia, PA

Client:
**Department of
Veterans Affairs**

Cost:
\$96,200

Completion Date:
October 2014
