

# VA Maryland Health Care System Perry Point VA Medical Center

**RLS Construction Group** was selected by the VA Maryland Health Care System to provide general construction services related to the correction of safety issues at the Perry Point VA Medical Center, in Perry Point, MD. The work involves updating Building #364, A Wing, to protect the patients housed in this area. The specific work included removal and replacement of air diffuser grilles and hinges to reduce ligature risks. Additionally, the medication storage area was expanded and a counter was installed to create a safer dispensing site. The end result of the project created spaces that will reduce patient risk, while maintaining the comfort and level of care.

Location:  
**Perry Point, MD**

Client:  
**Department of Veterans Affairs**

Cost:  
**\$227,000**

Completion Date:  
**August 2014**
