

Wilkes Barre VA Medical Center Community Living Center

RLS Construction Group was contracted for the completion of work associated with a new meal delivery system for the Community Living Center on the Wilkes Barre VA Medical Center campus. The project, designed by ByDesign Consultants, provides a functional method for meal distribution, yet offers a home-like atmosphere for the residents. The scope of work included installation of kitchen cabinets and counter-tops, sinks and electrical work for new equipment. Additionally, new epoxy flooring and renovation of the existing plumbing system to accommodate a new drain system was required. The project encompassed the 2nd and 3rd floors of the facility and **RLS** completed the project with minimal disruptions to the daily activities at the center.

Location:
Wilkes Barre, PA
