

Wilkes Barre VA Medical Center Kitchen Renovations

RLS Construction Group was selected by the Wilkes Barre VA Medical Center to renovate the kitchen area of the medical center, to support new washing equipment. The work included removal of the drywall, drop ceiling, and flooring. Additionally, the project involved the installation of new lighting, mold-resistant drywall, stainless steel wall panels, and epoxy flooring. The room was freshly painted, to give it a uniform and clean appearance. The project required new electrical and plumbing systems to support a new pot washing machine, so that the medical center staff can work more efficiently and effectively.

Location:
Wilkes Barre, PA

Client:
**Department of
