

Wilkes Barre VA Medical Center Polysomnography Suite (Sleep Lab)

RLS Construction Group was selected by the Department of Veterans Affairs to renovate the west side of the 8th floor at the Wilkes Barre VA Medical Center to house an updated Polysomnography Suite, or Sleep Lab. This project included complete demolition of the existing walls, ceilings and finishes to accommodate the new layout and space utilization. Additionally, new mechanical and plumbing systems were installed to meet the needs for the updated floor plan. The brand new, 4-bed, suite features cutting-edge sleep diagnostic equipment, and a soothing environment, so the staff can screen patients for sleep disorders in a comfortable, home-like setting.

Location:
Wilkes Barre, PA
