15B. CONTRACTOR/OFFEROR  (Signature of person authorized to sign)		15C. DATE SIGNED		16B. UNITED STATES OF AMERICA  (Signature of Contracting Officer)	
				16C. DATE SIGNED	

#	Question	VA Final Answer
15	Can stainless steel or non-domestic steel be provided in lieu of domestic steel? Domestic cast iron is available but is not allowed per the specification.	Steam traps must be of stainless steel construction, carbon steel body with stainless steel internals is also acceptable and must be American Made
16	During the site visit it was apparent that along with the existing steam traps, most of the pipe fittings and components in each steam trap station were not steel construction. Per the scope of work steel is required. Is the contractor required to replace all the items in the steam trap station that do not meet current VHA material requirements or just the items required to replace the steam traps?	Pipe fittings and components must be steel and meet the Buy American Act. <b>FOR YOUR PRICE PROPOSAL ASSUME ONLY THE STEAM TRAP WILL BE REPLACED.</b> Provide a cost per each type of fitting to be used as a basis of any potential changes to pricing: T-fitting, Elbow, Union and hand valve.

See attached document: Revised Price Cost Schedule.
